Heartstopper volume 2 recap

In the beginning of heartstopper 2 Nick and Charlie officially started dating, now they are telling all their friends over milkshakes, right before a concert that Charlie and 3 of his friends are in. They are all going to watch their friends perform, but first they tell them they're dating. Everyone was very happy, except one of their friends because he was very hurt that they hadn't told him sooner, and got very annoyed at Charlie. I am hoping to finish the book in June, and then read Volume 3.
